Openness

NASCA uses the power of structured sporting programs and cultural initiatives to harness the educational, employment and health aspirations of Aboriginal and Torres Strait Islander young people.

Working with Aboriginal and Torres Strait Islander young people to create a strengths-based, culturally strong environment results in Indigenous Australians realising a high level of health and prosperity determined by themselves. We work using the strength and diversity that is inherently part of Indigenous Australia across urban, rural and remote communities.

We address the root causes of inequality, and use our Aboriginal knowledge and expertise to ensure young people stay strong in their culture and identity and are resilient in combating the structural and systemic bias and racism prevalent in Australia today.

NASCA's belief in the power of sport and the need for Aboriginal and Torres Strait Islander young people to have access to their culture as much as possible allows us to address:

- School attendance and school performance,
- Barriers to furthering one's education and/or becoming gainfully employed after year 12,
- Physical, mental and spiritual health, and;
- Having pride in one's Aboriginality and the tools to see this as being a strength, not a hindrance, in the future of Australia.

"There are so many things that I take for granted in my daily life that are constant challenges in many of the communities. I went into the program with a new found understanding and respect that would continue to grow each day."

volunteer recruitment

NASCA partners with two communities in the Midwest and Goldfields region of WA.

The program operates in each community for one week, three times per year. The three delivery blocks are in Feb, May and September. While this is our first year in WA, NASCA recruits up to 20 Volunteers to work alongside our staff, three times a year (60 in total). Volunteers have the opportunity to assist for one week, in one community.

Our Teams

Teams are comprised of one NASCA Team Leader and two or three Volunteers. Each team spends a week working in one of the two partner communities. To qualify, Volunteers must be available to serve in either program week. This allows NASCA to build suitable teams from a pool of volunteers with appropriate balances in gender, experience and skills.
